# Use Alarm.. Stay Alert

## Burglar Alarm System

With rising unemployment, people are becoming more desperate and hence there has been an increase in the crime rate, especially break-ins and burglaries. Some of these have been life threatening. Alarm systems help in averting any such dangers and preparing for them well in advance. Get your ALARM and be SAFE.

### Wireless Alarm System

Automatic  
phone alert

It is the first wireless intrusion alarm system whose control panel uses the revolutionary PowerG wireless technology .

- ❖ Uses PowerG technology for higher security
- ❖ Extended battery life (up to 4 years)
- ❖ Easily control with wireless controller

### Wired Alarm System

Automatic  
phone alert

Although its choice of installers, homeowners, monitoring companies and national utilities, people are also using this wireless alarm systems to protect their homes.

- ❖ Optional GSM-based backup communication channel
- ❖ Extended battery life (up to 4 years)
- ❖ Easily control with wireless controller

### Alarm Accessories

We provide all kinds of accessories for Wireless Alarm Systems.

- ❖ Wireless siren
- ❖ Miniature keyfob transmitter
- ❖ Wireless pet tolerant digital PIR
- ❖ Wireless door contact

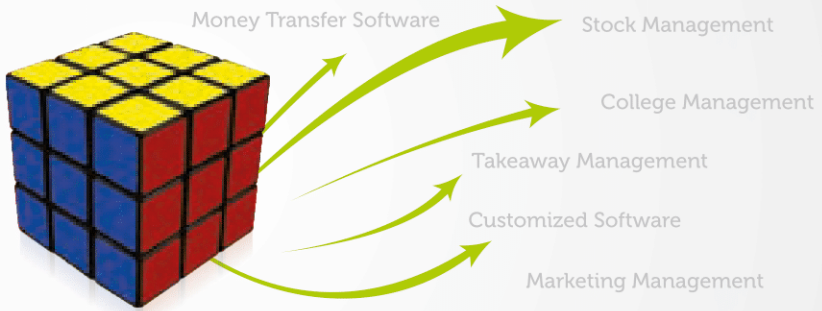

### Door Bell

Easy to install door bells for home use. No wiring or electrician required, home users can install themselves.

- ❖ Weather proof and completely wireless
- ❖ Operating distance 60m
- ❖ Batteries included

## Software Development

We work closely with our customers to first determine what needs exist and then suggest the best approach to satisfy them. Microtimes always has an open ear for customer input and suggestions. Whether your next project is retail boxed software, a custom database application, an online application, or a nice little script-based timesaver we would love to hear from you.

### Stock Management Software

- ❖ Free training with purchase
- ❖ Up to date and available at any time
- ❖ Save money and time

Track inventory efficiently and accurately with our Stock Management software. Inventory control makes it easy for your business to eliminate inventory tracking errors, improve customer service, and reduce costly inventory write-offs.

### College Management Software

- ❖ Cost effective
- ❖ Technological edge
- ❖ Scalability
- ❖ User friendly
- ❖ Security
- ❖ Accessibility

College Management software is a user friendly system which manages and solves the most complex tasks in educational administration. It fulfills all the entire administrative and academic requirements.

### Money Transfer software

Secured and traceable access level. Multi search option and multi location support within same network.

### Customized Software

As per your need and requirement, We will develop software accordingly. As it is developed particularly for a specific customer, it can accommodate that customer's particular preferences and expectations.

## One stop solution for EPOS DELIVERED

Essential for any business

Updated stock Report

Barcode Scanning

## Web Design

At Microtimes, we believe that a dynamic website with great design and good usability can really make the difference to your business. By harnessing the power of the web in connecting you to your potential customers and making those all-important sales, your website is your 24/7 store and salesman. Our websites are a real investment, effective in making you money online.

### Static Website

Ideal for small business owners who want to have a simple website in which the content will not be frequently changed.

- ❖ Cost effective
- ❖ Less time to build
- ❖ Cache friendly, less time to load

### Dynamic Website

Dynamic web sites offer you a whole lot of opportunities. A dynamic site could be constructed so that you or a member of your staff could login to your website admin panel and update the information, saving you the time and money it takes to maintain the site.

- ❖ Interactive
- ❖ Easily manages large contents

### Content Management Site

A content management system allows you to easily add, edit or remove content on your website without the need for advanced IT or programming skills. Edits can be made via a simple interface from a web browser, meaning you can update your website wherever you are, whenever you wish. Updates are made in real time and no special software is required.

- ❖ Easy to manage large inventory
- ❖ No need of skilled staffs

### E-Commerce Website

A professional e-commerce web design is one of the most critical elements to your online success. Simply put it this way, you'll never get a sale if customers aren't impressed with your site. Luckily we've got tons of ways for you to design your store, no matter your budget.

- ❖ Non stop business transactions
- ❖ Automated operations

## Search Engine Optimisation (SEO)

With over 90% of people finding products and services through search engines, achieving (and maintaining) first page positions for your domain is essential if you want to capitalise on this huge amount of traffic and establish your brand on the web.

### SEO

Whether you're a multi-national giant or a small independent business, your success online depends largely on one thing – Search Engine Optimisation (SEO). Without effective SEO that actively propels your website up the search engine rankings, any other money and effort you spend on your site is as good as wasted. To get to the very top you need professional SEO services of the highest calibre, and that's where we come in.

### Pay per click

Pay Per Click (PPC) advertising, along with SEO, is a crucial means of promoting your website and getting it noticed. And we can help you to do just that.

- ❖ Proper management of PPC
- ❖ Expert professionals who have long experience of PPC and know the trend of the market

### Link Building

The Internet, as the name suggests, depends on the linking together of all its component parts – individual websites and pages.

- ❖ Cutting-edge link building services
- ❖ Integrate professional link building into your SEO strategy

### Social Media

Social media continues to grow in importance for business in the 21st Century, and is something that an online business can't afford to ignore. As a marketing channel it is still in its infancy, and there are as many pitfalls for the uninitiated as there are opportunities.

wireless  
networking

Wired  
Networking

"Importance of effective network installation service and reliable network security & support services cannot be denied for any type of business, irrespective of its size and scale."

## Networking Solution

### Pre-Installation consultation:

Microtimes Ltd. will first meet with you to determine your needs. Once we hear your concerns, we can better understand your business and begin planning your solution.

### Evaluation Pre-Proposal

Once IT technicians have consulted with you, we will perform a thorough evaluation of your company's computer infrastructure. Then we will present you an evaluation pre-proposal all according to your requirements.

### Small Business

- ❖ Cyber cafe
- ❖ Solicitor firm
- ❖ Accountancy firm
- ❖ Travel agency

Improve the efficiency of your workforce, comprehensively backup data, and share files quickly and securely between employees with a small business IT network.

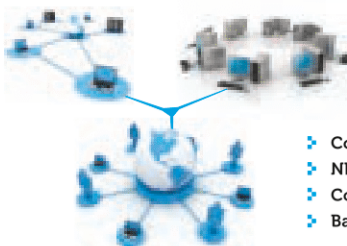

### Medium Business

- ❖ Call centre
- ❖ Primary/secondary school
- ❖ Mobile company
- ❖ Madrasa

An IT network from Microtimes can easily grow alongside your business, from simply adding a new user to your system or expanding to another office.

### Large Business

- ❖ College/ University
- ❖ NHS
- ❖ Council
- ❖ Bank

Save money and increase the efficiency of your business by positioning your servers in a single location which serves all of your offices.

### Remote IT Support

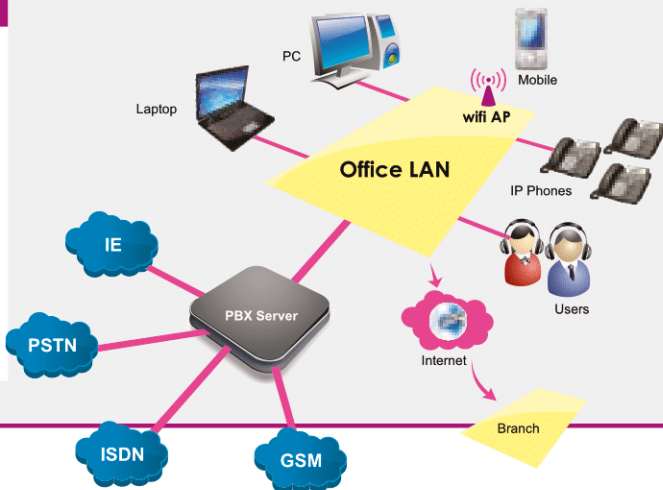

- ❖ Save money
- ❖ Save time

Our highly qualified technicians are always ready to support remotely dramatically saving time and money.

## Benefits

- ❖ Much easier to install & configure than a proprietary phone system
- ❖ Easier to manage because of web/GUI based configuration interface
- ❖ Significant cost savings by using VOIP providers
- ❖ Eliminate phone wiring
- ❖ Eliminate vendor lock in
- ❖ Scalable
- ❖ Better customer service & productivity
- ❖ Twice the phone system features for half the price
- ❖ Allow hot desking & roaming
- ❖ Better phone usability: SIP phones are easier to use

## IP PBX Solution

An IP (Internet Protocol) PBX (Private Branch Exchange) is a business telephone system designed to deliver voice or video over a data network and interoperate with the normal Public Switched Telephone Network (PSTN). We provide you with everything you need to help your business. We will assess your needs and then advise and supply you with the phone handsets and all of the ancillary equipment that is needed.

### Small Business IP PBX

- ❖ Unbeatable value
- ❖ Easy to set up
- ❖ Connect anywhere

IP PBX Phone systems from Microtimes help small business improve image, control costs and stay connected anywhere. Our IP PBX and PBX telephone systems handle VoIP and have great features.

### Government, Health & Education

- ❖ Non stop business transaction
- ❖ Automated operations.

We have a great deal for government, health and educational Organisations. We provide a customizable IP PBX system for your organisation that suit your requirement.

### Enterprise IP PBX

- ❖ Enhanced services
- ❖ Telephony applications
- ❖ System administration
- ❖ End user applications
- ❖ Customization
- ❖ Reliability

Enterprise level IP PBX edition provides the business class with features required by today's demanding communications needs that all businesses face.

### Call Center Solutions

- ❖ Unlimited ACD queues
- ❖ Unlimited call agents
- ❖ Comprehensive reporting
- ❖ Real time queue statistics
- ❖ Real time queue monitoring
- ❖ Soft phone
- ❖ Optional predictive inbound and out bound dialing
- ❖ Skills based routing, and many more.

The call center edition offers a set of features needed for an organization to effectively start and manage inbound or outbound call campaigns.

## A complete range of Sound System

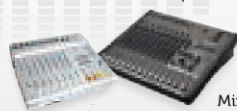

Speaker Cabinets

Speakers

Wired and Wireless Microphones

Mixers

## Projector Solution

Colleges, offices, conferences, meetings... whatever may be your situation, projectors provide the best communication/ presentation solutions.

Our engineers have installed a wide range of visual systems throughout the UK including projectors, screens, interactive whiteboards, flat screen displays and digital signage. If you have an idea on what you would like to do but are not sure on how you can achieve your projector needs, then just give us a call and we will be glad to send out an engineer to conduct a FREE site survey to discuss your needs.

Special discounts  
available for Colleges

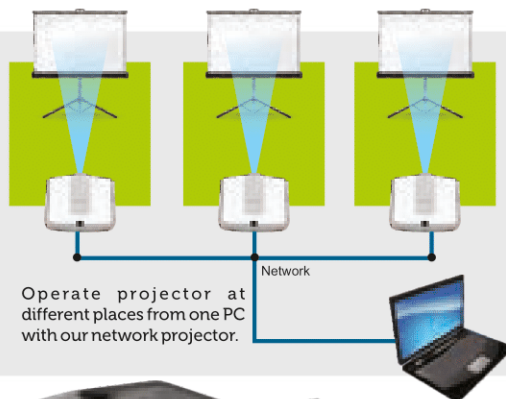

## Projector Installation

### Standard Projector

We have a wide range of projectors to choose from. Ideal for your classrooms, meeting rooms, training rooms and reception areas, and of course your home cinema projector installation is just a phone call away.

### Network Projector

### Interactive Whiteboard

#### What is an Interactive Whiteboard?

An interactive whiteboard (IWB), is a large interactive display that connects to a computer and projector. A projector projects the computer's desktop onto the board's surface where users control the computer using a pen, finger, stylus, or any other device. The board is typically mounted to a wall or floor stand.

#### Features:

- ❖ Operating any software that is loaded onto the connected PC, including web browsers and proprietary software.
- ❖ Using software to capture notes written on a whiteboard or whiteboard-like surface.
- ❖ Using software to capture notes written on a graphics tablet.
- ❖ Controlling the PC, markup and translating cursive writing to text (not all whiteboards)

New!

## Home and Commercial Security

Audio and Video Door Entry Systems provide you the much needed security and comfort for home use and business.

## Door Entry

### Audio Door Entry

Audio Door Entry systems give domestic households and businesses the added convenience and security of being able to call before allowing them entrance to their premises. Moreover, they have additional convenience of opening of the door via a door release function.

#### How it works?

- 1 Visitor press the door bell button on the entry unit.
- 2 Telephone handset will ring.
- 3 When telephone is answered 2 way conversation is possible with the visitor.

Optionally, if an Electronic Door Release is fitted to the entrance then it is possible to push a door release button on the telephone handset and automatically allow the visitor entry in to the premises.

### Video Door Entry

Video Door Entry provides the user with the added convenience and security of being able to both see and communicate before allowing unwanted callers in to their premises.

#### How it works?

- 1 Visitor press the door bell button on the entry unit.
- 2 Telephone handset will ring.
- 3 When telephone is answered 2 way conversation is possible with the visitor.

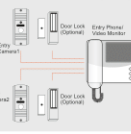

Optionally, if an Electronic Door Release is fitted to the entrance then it is possible to push a door release button on the telephone handset and automatically allow the visitor entry in to the premises.

#### Single Entrance

#### Two Entrance

#### Multi Apartment

## Time Attendance Management
